

## ChadTough Grant Final Report

We require each grant recipient to submit a final report within 60 days of the end of the grant period. The final report should include the following information.

### 1. Lay Summary

Provide a brief UPDATED lay summary of your research project and your results. The update will be used on ChadTough Defeat DIPG Foundation's website and may be used in various publications.

### 2. Scientific Report

- a. Specific Aims: Restate the original aims of the project.
- b. Results: Discuss progress to date and identify obstacles or delays.
- c. Significance: Describe in what ways the results obtained so far are significant for DIPG/DMG.
- d. Future Plans: Discuss plans for the next phase of the research project.
- e. Resource Sharing: List the unique resources generated in this project and how you plan to share them with other researchers.
- f. Publication/Presentations: List publications, meeting presentations or posters for which you have acknowledged funding from this grant and submit copies of your publications.
- g. Intellectual Property: If applicable, list invention disclosures, patent applications and any patents issued that resulted, in whole or in part, from this funded project. List any industry-related activity, such as the founding of a company or ongoing or completed sponsored research agreements with an industry partner.

### 3. Financial Report

- a. Please provide a financial report of how the funds were spent.
- b. If the spending differed from the approved budget, please provide a brief justification.
- c. If there are any funds remaining, please remit them to the ChadTough Defeat DIPG Foundation.
